Ridgecrest Substation Court-Holding PREA Staffing Plan 2026

The Prison Rape Elimination Act (PREA, standard 115.13) requires each facility operated by this agency to develop, document, and provide a staffing plan for adequate levels of staffing and video monitoring, where applicable, to protect incarcerated persons against sexual assault and abuse.

The requirements set forth by PREA is that this agency operates its facilities using generally accepted detention and correctional practices. The Kern County Sheriffs Office (KCSO) Detentions Bureau is inspected every two years by the California Board of State and Community Corrections (BSCC).

The Kern County Sheriffs Office (KCSO) Ridgecrest Substation currently operates a court-holding facility. This facility used to operate as a fully functional jail; however, arrestees are no longer booked at the facility, and inmates are no longer housed in the facility. When the Ridgecrest Jail was operational for booking and housing, it was staffed with four (4) detentions deputies and One (1) Senior Detentions Deputy. If at any time the Ridgecrest Jail is occupied again, this staffing plan will be followed until a new staffing plan is adopted.

Housing Units

The Ridgecrest Facility has three four-man cells, two single cells, one detox cell (used as a court holding cell only), two attorney booths, and one holding cell. The facility has a jail office, a booking office, kitchen, storage room, janitorial supply closet, and a Sally-port/receiving area, which leads to three hallways.

The facility operates as a court-holding on Mondays, Tuesdays, and Thursdays. Subjects remanded at court into the Sheriffs custody are also held in the court-holding cells only on Mondays, Tuesdays, and Thursdays. Remanded subjects are then transported to the Lerdo Justice Facility and booked. If the remanded subject needs medical clearance prior to being booked, they are transported to a medical facility and cleared.

The Ridgecrest Substation is staffed with a sergeant, a senior deputy, patrol deputies, and court deputies. The sergeant supervises both the substation and the court-holding facility, while the senior deputy manages the day-to-day operations of the court-holding facility. Transportation Unit deputies transport inmates to and from the county jails to the Ridgecrest Substation court-holding facility on Mondays, Tuesdays, and Thursdays. The transportation deputies complete all the mandated deck checks and logging documentation while at the facility.

In developing the above staffing plan, the Kern County Sheriffs Office, in conjunction with its Detentions Bureau and Ridgecrest Substation court-holding facility manager, has considered the following factors:

1) Generally accepted detention and correctional practices:

The Kern County Sheriffs Office continually reviews National Institute of Corrections updates and other organizations' updates. The Kern County Sheriffs Office is a member of the American Jail Association and the National Sheriffs Association. We constantly network with other jails in the State of California and out-of-state jails to stay up to date and review alternative methods to ensure the facility's safety and security.

2) Any judicial findings of inadequacy:

The Kern County Sheriffs Office has had no judicial findings for the Ridgecrest Jail Facility.

3) Any findings of inadequacy from Federal investigative agencies:

The Kern County Sheriffs Office Ridgecrest jail facility has not had any Federal investigative findings of inadequacy.

4) Any findings of inadequacy from internal or external oversight bodies:

The Kern County Sheriffs Office participates in biannual inspections from the Bureau of State Community Corrections (BSCC) to ensure compliance with Title 15 and Title 24 regulations.

5) All components of the facility's physical plant (including "blind spots" or areas where staff or incarcerated persons may be isolated):

Blind spots in physical design and opportunities for misconduct in the staffing structure have been mitigated by the installation of a surveillance system with recording. The video surveillance footage is routinely reviewed by deputies to ensure compliance with KCSO policies. There are 19 cameras in total at the facility.

6) The composition of the incarcerated person's population:

Inmates detained at the Kern County Sheriffs Office Ridgecrest Substation court-holding facility are generally comprised of court-holding inmates for the Ridgecrest Branch of the Kern County Superior Court.

7) The number and placement of supervisory staff

The facility supervisor is on duty primarily during the day and often fills other shifts for staff who are off on vacation, training, or ill. Substation patrol deputies enter the facility periodically.

8) Institution programs occurring on a particular shift:

As a temporary holding facility, there are no programs provided at the Ridgecrest Substation court-holding facility.

9) Any applicable State or local laws, regulations, or standards:

There are no applicable State or local laws governing staffing in a county jail. State Regulations under Title 15 of the Board of State Community Corrections require adequate staffing to ensure inmate safety.

10) The prevalence of substantiated and unsubstantiated incidents of sexual abuse:

The prevalence of substantiated and unsubstantiated incidents of sexual abuse that were taken into consideration while developing this staffing plan can be viewed at the following link: <https://www.kernsheriff.org/Prea>

11) Any other relevant factors:

There are no other relevant factors at the Ridgecrest Substation court-holding facility that affect its ability to detect, prevent, and respond to issues of sexual abuse, assault, or harassment of incarcerated persons in its care and custody.

The staffing plan below establishes basic security staffing positions and levels to ensure a safe and secure environment for inmates and staff.

Real-time video monitoring of receiving, holding cells, live-scan/dress-out room, and hallways shall enhance inmate safety.

Staff positions identified for security operational purposes are guidelines and shall be flexible according to facility needs.

Serious/emergency incidents or staffing issues may result in restricted operations at the Ridgecrest facility.

Definitions

Normal operations — Regular, daily operations, that occur without incident under normal procedures resulting in no staff reductions.

Limited operations — Occurs when a staff member is out for training, vacation, or illness. Senior Deputy to resume staff member duties.

Restricted operations - Serious/emergency occurs, or staffing is not available,, resulting in halting of all facility operations.

Limited event — Example: training or inspection.

Unexpected event — Example: illness.

Serious incidents — Example: death, major assault, inmate illness or power disruption.

Emergency events — Example: natural disaster, fire, riot, civil unrest, terrorism. **Normal Operation:** Sergeant*/Senior (except weekends)

JAIL OFFICE
YES

*Night Sergeant On-duty seven days a week
Day Sergeant On-duty Monday through Friday
Limited Operation: Sergeane/Senior (except weekends)

JAIL OFFICE
YES

*Night Sergeant On-duty seven days a week
Day Sergeant On-duty Monday through Friday

Restricted Operation: Sergeant*/Senior (except weekends)

JAIL OFFICE
NO

*Facility closure

The 2026 review did not indicate the need for adjustment to the facility's staffing level as compared to the staffing levels established in 2025. Staffing levels for the facility will remain as described in Section P-200 of **DBPPM** and the above-mentioned 2026 staffing plan unless revised during a future review.

Sincerely,

DONNY YOUNGBLOOD, Sheriff-Coroner
